Calling for Abstracts

Background and Objectives

The First International Conference on Utility Management and Safety was held in 2009 and was a great success. This second conference aims to build on that success by providing an excellent platform for utility specialists to share their experience with delegates from around the world.

Delegates will have a unique opportunity hear about the latest theories, practices and developments in utility planning, production, management and safety from the four corners of the globe.

Conference Topics

Theme: Towards Sustainable Urban Development

The major topics for the conference program are as follows:

1.) Field Techniques & Materials:

Utility Surveys, Pipe Condition Surveys, Pipe Rehabilitation Methods and Materials, Water Leakage Detection, etc.

2.) Asset & Data Management:

Project Management, Training, Personnel, System, Program, Construction Design, GIS, Data Sharing, Risk Management Strategy etc.

3.) Safety & Health:

Safety Management, Construction Management, Damages, Pollution, Carbon Reduction etc.

These topics are not exhaustive and papers which fall within the general theme of the conference will be considered for presentation. Conference proceedings will be published and made available at the conference. An abstract (maximum of 250 words) should be sent to the conference secretariat no later than **30 June 2010** for review by the Technical Review Board. The Technical Review Board members would review the collected abstracts. Papers will be accepted on the basis that the named author will attend the Conference in person to make the presentation.

Language

English is the official language. Simultaneous translation services will not be provided. Oral presentations in Putonghua are welcomed. Papers and presentation materials should be prepared in English.

CPD Arrangement

CPD certificates will be issued to all participants of the conference and technical visits. CPD certificates are deemed invalid without the authorized chop.
